Envision this beautiful book!

"Is There Any Ice Cream?" is a collection of experiences to help generate an appreciation for the role of caregiving, supporting the belief that one day each one could become a caregiver for a loved one.

Written for caregivers and those who support caregivers, Shone juggles humor with insight, as she recounts the story of an untrained and desperate caregiver who, in her memoir-story style, relates her formidable experiences, accompanied by the emotional chaos of caregiving for her loved one with COPD, Alzheimer's disease, vascular dementia, and anxiety, with cancer behind him, and occasional mysteries arising. Includes one successful intervention.
